- OOPS Concept
- Responsive Web Design

## PROJECTS

**Spotify Clone** | [HTML](#) | [CSS](#) | [JavaScript](#)

June 2024

- This project showcases advanced web development skills and replicates key features of the original Spotify application, offering a seamless user experience for music enthusiasts. .

**Weather App** | [HTML](#) | [CSS](#) | [JavaScript](#)

April 2024

- Developed an intuitive Weather Web App using HTML, CSS, and JavaScript that delivers real-time weather updates for any entered city. This project highlights my proficiency in front-end web development and API integration, providing users with accurate and up-to-date weather information. .

**Notes WebApp** | [Python](#) - [Flask](#) | [HTML](#)

March 2024

- Developed a dynamic Notes App using Python and the Flask framework, enabling users to manage their notes efficiently. This project highlights my backend development skills and demonstrates proficiency in building CRUD (Create, Read, Update, Delete) applications with Flask.

## TECHNICAL SKILLS

**Languages:** Python, HTML, CSS, Javascript, MySQL

**Developer Tools:** VS Code, IntelliJ Idea Ultimate, Pycharm, Github

## EXTRACURRICULAR

**National Service Scheme** | [NSS Volunteer](#)

June 2023 – Present

Mumbai

- As an NSS Volunteer, I organized and led community outreach programs, conducted education and literacy initiatives, spearheaded environmental projects, and participated in disaster relief operations. I managed teams of volunteers, organized social campaigns, and assisted in fundraising efforts, developing strong leadership, communication, and project management skills while making a significant impact on community welfare..

**Institutions Innovation Council** | [Photography Executive](#)

June 2023 – June 2024

Mumbai

- Captured high-quality photographs of college events, workshops, and seminars organized by the Institution Innovation Council. Ensured comprehensive visual documentation of key moments, speaker sessions, and participant interactions.
